**COMMUNICATION TO RECORD SUBSTANCE OF
TELEPHONE INTERVIEW**

Sir:

A telephone interview was held March 22, 2006 in the above matter between applicants' representative George Blasiak and Examiner Karl Frech in which the applicants proposed claim amendments desirable for purposes of bringing claims into closer conformity with the specification. Applicants' representative noted during the interview that applicants' representative discovered during a review of the claims that while the "light source" element is clearly intended to cover an illumination or aiming light source, the portion of the description relating to a control circuit references an illumination assembly without expressly referencing an aiming light source. In view of the above observation, applicants'

Communication to Record Substance of Telephone Interview Dated April 17, 2006

representative proposed various claim amendments. While applicants' representative and the Examiner did not reach a final understanding during the interview as to the precise form of claim amendments would be entered and considered by the Examiner after allowance, the Examiner was receptive the general approach proposed by applicants of improving conformity between claims and the written description by way of an Amendment After Final.

If the Examiner believes that contact with applicants' attorney would be advantageous toward the disposition of this case, the Examiner is herein requested to call applicants' representative at the phone number listed below.

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to deposit Account No. 50-0289.

Respectfully submitted,

WALL MARJAMA & BILINSKI LLP
